PRELIMINARY TREATY

Its Terms Reported to Washington of Lincoin county has replied to the But Not Made Public.

POOR PROSPECT OF AN AGREEMENT.

Material Amendments Will Be Necessary Befo. o All the Porters Can Unite on the Solution Of the Chinese Puzzle.

Washington, Nov. 26.—The state department has been Informed of the agreement, or preliminary treaty reached by the foreign ministers at Peking but It is not regarded as ex pedient to give out for publication a. this time may detailed information regarding It. It may be stated, however, that the arrangement stands a very poor chance of receiving the scriction of all the powers represented in the Peking conference, unless some materlal amendments are permitted.

Just what the objectionable features are, can only be surmised, in view of the adverse decision of the authorities respecting publication. But, accepting seems to me, political capital for somens accurate the statement from Peking body. I want to add that politics cuts that the basis of the agreement is to be found in the French note, it is easy to perceive that there are no less than two points which, if included in their original shape, would not meet with the unqualified approval of this government. For instance, the president expressly reserved his opinion as to the proposition that the Taku forts be dismantied. He also withheld his approvai of the French proposition that there be a permanent military occupation at two or three points on the road between Tien Tsln and Peking.

There were several points to which the assent of the United States was given, namely: Providing for the punishment of the gulity Chinese wito may be designated by representatives of the powers at Peking; for the collection of equitable indemnities, in which connection our government suggested a reference of the subject to The Hague tribunai; and, finally, for Peking. The latter, however, was to attack upon the Indians against overthe maintenance of a legation guard at be temporary until congress acted on the matter. Unless the ministers at Peking have made a very substantiai change in the requirements of th French note, therefore, it may be predicted that our government will feel obliged to seek to make some aiterations in the arrangement hefore it gives adherence.

There is some reason to believe that the indemnity proposition has taken such an excessive form as to make it impossible for the Chinese government to meet the demand and this demand, taken in connection with the unreasonable demands of the powers, respecting punishments, may oblige our government to endeavor to have the demands moderated. There are Indi ments represented at the Peking eon ference and one which has generally plying any part of the trust fund to the supposed of late to have favored an dehts of Anna Gould or to her support extreme position.

Dr. Von olieben, the German ar bassador who recently returned Washington after an absence since la spring, cailed at the statedepartment a-hrac dealer, on a claim of \$328,000. Monday and had a long intervier with Secretary Hay, supposedly wi reference to Chinese matters among other things.

SHERIFF SLAPS BACK.

Doesn't Propose to Be Censured Fur Cremuion of Porter.

Denver, Nov. 26.—Sheriff Freeman ietter of District Attorney McAllistec of Colorado Springs concerning the prosecution of the persons who burned the negro rapist and niuraerer, Preston Porter, at the stake at Llmon, Colo., recently. After telling of how he was influenced into taking Porter from benver to Limon upon the assurance of leading entizens of Lincoln county that he would be allowed to pass through Limon unmoiested to Hugo, where he would be permitted to place Porter In the county jaii, Sheriff Freeman deciares that it would be impossible to get a jury in Lincoln or any adjoining county that would convict any one charged with participating in the burning of Preston Porter. He con ciudes as follows: "I don't justify the cremation, but I do object to having you and Governor Thomas saddle tire biame of this burning on me and I what not invoive Lincoin county in a neediess and a fruitiess litigation against las own citizens or given additional advertisement to the state of Colorado for the sole purpose of making, as it no ice in titls affair. While Lincoin county is a Republican county, the men who participated in this lynching were representatives of ail political parties. When it comes to administering death to a brute who first rapes a ehild and then stabs and kicks her to death, I take it that true Americans iose sight of mere polities and remember only that they are fathers and brothers. It seems to me that we had better iet this episode rest where it

Indians Posching.

Denver, Nov 26.-Adjutant General Overmyer wired Troop A cavairy at Grand Junction to be in readiness for an immediate call in case Game Commissioner Johnson's force should not be able to step the slaughter of deer by the Indians in the White River district. There are 60 men in the troop. Fear is expressed at the capitoi that Commissioner Johnson will make the wheiming odds. Game Commissioner Johnson and his deputies went to Kille and proceeded to Meeker by stage. It is a 45 mile ride and will require the entire day. While the commissioner was here he received reports from ranchmen which indicate that the slaughter of game has been unprecedented in the history of the state. UNDAUNTED BY RESULT OF ELECTION

Ills Views on Prospective Legislation. Says the Ship Subshiy Scheme Is Not as Objectionable as Increase Of the Standing Army.

Denver, Nov. 26.-Senator Henry M. Telier of Colorado, who leaves the Washington, speaking of the effect the defeat of Biyan will have on the silver question, said he did not intend to abandon the silver question because of the result of the recent election. "The silver question is not dead." ho continued, "and will be a live question in American politics for years to con.? and I am firmly of opinion that we will ultimately return to the biniciallie system, in my judgment the on! system that can secure stability of prices and equality between the cielitor and debtor."

Speaking of Important legislation to

be enacted by congress during the coming session, he said: "I anti lpata that there will be an attempt made to lucrease the regular army Independent of any force that may be necessary for the Philippine Islands, to the extent of 100,000 as a permanent army. I don't very nuch whether such a measure can be passed during the short session. So far as I am concerned, I am very much opposed to It and will do all I can to prevent it. I am quite willing that the government should have a:! the forces in the Philippine island; that may be necessary to conquer, if t is the policy of the administration to dispose of that question in that wny. There will also be an effort to past what is known as the subsidy sintp ping bili, which will impose a burden upon the people of anywhere from \$10,-000,000 to \$20,000,000 a year for a nummore than once to seize the Bratton ber of years to come. I dop't believ and her officers and crew were several it is a wise measure, but rather expect to see it pass during this session. For awhile there will be, I think, a great and all were drowned. At the south the vessel to stand out in the stream waste of money. It is not as objectionable as the army bill. I think attempt to reduce the present war revenne tax and to get rid of some of tital very objectionable features. I notice that the action of the cabinet appears to be in that direction. I hope it may be done. Aside from these matters i doubt whether there will be very much other legislation attempted during tie. short session."

Senutor Teiler does not expect to participate in the senatorial contest in Colorado, but considers the fusion forces should hold together in making a selection of a senator.

Strike is On.

Tampa, Fia., Nov. 26.-in spite of the agreement to hold the general strike in abeyance until the committed from the Resistencia organization and the international Cigarmakers' union could get together, the general striks was declared Monday morning. THE ECLIETTS will enjoy a holiday Thanksgiving day.

The South continues to get there in a manner that is no doubt opening the tob r, the exports of raw cotton amounted, in value, to over \$60,000,000, or more than twice the total for the corresponding month the previous year.

Is there is no ordinance covering the case one should be passed fixing a severe penalty for failure to report an infectious or contagious disease. A case of smallpox was discovered Saturday where the patient had been ill ten days. If there is a penalty for failure to report such cases, the law should be inforced. The health of the community is at stake.

THE South's cotton crop this year will be worth from \$340,000,000 to \$500,000,000, against an average of \$300,000,000 of late years, an increase of from \$150,000,000 to \$200,000,000. Including the seed the value of the cotton crop will exceed \$500,-000,000. Elaborating these facts the Manufacturers' Record says:

Southern mills will consume probably 1,750,000 bales, against 1.500,000 bales last year. This cotton, which will cost Southern mills about \$75,000,000 to \$80,-000,000, will, in its manufactured shape, be worth more than \$225,000,000, thus adding \$150,000,000 in the process of manufacture. To this add an estimate of \$100,000,000 as the value of cotton seed oil, hulls, &c, and it is found that the cotton crop will this year yield to the South the following: Cotton and see!......\$500,000,000

CERTAIN Republican journals have persistently asserted that Bryan demanded pay, and was paid, for all his important campaign speeches. The Morning Democat of Lexington puts a quietus to this talk, which, from the very nature of the charge implied, was an insult to one of the nation's leading men. The Demo-

The impression, perhaps, grew out of the fact that in the campaign of 1896 the National Democratic Committee, being in need of funds, requested the various local der it. The contest for the offices of committees of the places where Bryan spoke to help pay the expenses of his trip. This money was given to the National Committee and not to Mr. Bryan.

This year, instead of being paid, Mr. Bryan gave large contributions to the Nat onai Democratic Committee, besides months of his time, and he is a poorer, wiser and sadder man to-day. No Presidential cand date ever worked harder State." than he for the success of the party, and no man ever went down in defeat retaining such great respect and confidence of the people. He is bound to continue to occupy a leading place in National polities, that it is not likely he will be named as Democracy's standard hearer again. Two nominations and two defeats, the last a great deal wors than the first, are enough to convince the party that some other man must be chosen if it is to be led to victory.

## WORK OF THE TRUST.

"At first sight it seems somewhat amazing," says the St. Louis Republic, "that the steel trust should demand so soon after the triumphant re-election of Mr. McKiuley that its employes in the President's own State shall consent to a wage reduction of 33 per cent., the greatest ever known to American steel work-

"The trnth of the matter seems to be that the steel trust and other kindred organizations now feel themselves to be firmly intrenched in power and that there need be no further make-helleve in their dealings with those at their mercy. They are out for the stuff, and a good deal of the stuff is to be gained by wage reductions of 33 per cent, in such giant industries as that controlled by the steel trust. Not for four years will it be necessary again to hoodwink their employes into voting for the party of the trusts. Therefore the monopoly game being a equeeze game of singular selfishness, the selfish equeeze begins with wage earners subject to monopoly rule."

#### IN THE PHILIPPINES.

Letter From Mr. John S. Stephens Telling of the Cut-Throat Tactics of Aguialdo's Men.

MANIGA P. 1., Oct. 11th, 1900. Dear Bulletin: 1 will drop you a few lines and give you a little news from these far-off islands known as the l'hllippines. As we say over here "Pocotempa," they will be known as the Island of mystery, for no one eau tell ju t what will happen until after the Presidential election, and then the world will cast its eyes on these Islands and will say, "I did not know it was loaded." For now we have two men in the field against us -one is Aggle and the other was a General ln Agg'e's army but now he will nol recogniz: Aggle any more. He is shrewd, for he callected all the arms he could get before saying that he was the Commander-In-Cldef and all the Gagas are flocking to him, so you can see how things stand. There are no more regular soldlers in Aggle's army, for the last lifty men we captured said they were the last, and all left of Aggle's army now were nothing but Ladrones and cut-

These Ladiones are something to fear, for you can not tell one of them. They all say they are 'mueho Amlgo" and will offer you a elgar or something and the lirst thing you know you are ent with a bolo. Week before last one Corporal was walking down a village street and a Gugua asked bim for a light, and while he was giving the Hombra a light three others of the gang came up behind him and cut him to pieces and burled his body. When his company heard it they marehed out from likelr quarters and arrested all the men found and of course some of them started to run and the boys made about Iwentythree good Gugas out of them. And there wont be any rainy season when they use their bolos,

As Tony Pfeiffer used to say, "you no can tell." Well, my best wishes are with old Maysville and Maysvillians. I remain, yours truly,
